

FIRST MEDIA PROFESSIONAL LEARNING CENTRE

Elementary Stop Motion Animation

Certificate of Attendance conferred by
FIRST MEDIA PROFESSIONAL LEARNING CENTRE
In collaboration with First Media Design Integrated Marketing Communication Group

Objectives of the Workshop

Elementary Stop Motion Animation is an introductory course for a complete beginner. This course approaches animation in the traditional claymation methods using traditional approaches. Learners will be given the opportunity to explore the animation production process by completing a set of short exercises. The sessions will include the entire production process, from ideas generation to setting up the equipments, to the model creation, as well as the animation process. Learners will have the chance to export their completed works onto DVD to showcase their works.

Profile of First Media (FM)

First Media is Singapore's leading player in the marketing communications business. FM comprises 10 creative studios with specialised disciplines, experience and qualifications, offering a seamless chain of integrated marketing communication services.

Over the decades, FM studios have been successful in providing creative services to a broad spectrum of industries covering small and medium enterprises (SMEs), multinational corporations, Temasek-linked Companies (TLCs), government ministries and statutory boards.

FM has established a strong presence in regional markets. It has physical studio presence across 5 Asian markets staffed with qualified and experienced design practitioners.
